Ajentis Medical Emergency Training Programs:

Ajentis Medical Emergency Training Programs combine the latest available technology and methodology to create an easy, low stress adult learning environment. Each student is provided with their own equipment and support materials. Our award winning interactive video learning system and focused hands-on real life training scenarios use of the highest quality training devices available. Students leave with the skills and confidence to respond according to their level of training.

These certified courses are taught in accordance with the guidelines of the Heart and Stroke Foundation of Canada and are Workplace Health and Safety recognized. All courses can be customized for your business or group. Usual and customary travel costs may apply. Training program contracts are available upon request. A minimum charge for 10 students will apply to each course unless otherwise agreed upon.

Basic Life Support Training Programs:

HeartSaver CPR

Option #9111

The HeartSaver CPR course is designed to teach lay rescuers the lifesaving skills of cardiopulmonary resuscitation (CPR) as well as relief of choking in responsive and unresponsive adults and children. The importance and use of barrier protection and an introduction to the use of the Automated External Defibrillator (AED) will be covered.

Learning Objectives

- One Rescuer Adult / Child CPR
- Adult / Child Choking (Responsive and Unresponsive)
- Barrier Device and Pocket Mask
- Automated External Defibrillator (AED) Introduction

Duration: 3 Hours

Cost: \$55.00

Certification/Renewal Period: 2 Years

HeartSaver AED

Option #9112

The HeartSaver AED course is designed to teach lay rescuers the lifesaving skills of cardiopulmonary resuscitation (CPR) and relief of choking in adults, children and infants. Automated External Defibrillator (AED) use is taught for adults and children. This course teaches participants to recognize and treat emergencies such as cardiac arrest, heart attack, stroke and choking. The course is designed for those who have a duty to respond to a cardiac emergency because of job responsibilities or regulatory requirements. This course is also open to the general public.

Learning Objectives

- One and Two Rescuer Adult / Child / Infant CPR
- Adult / Child / Infant Choking (Responsive and Unresponsive)
- Barrier Device and Pocket Mask
- Automated External Defibrillator (AED)

Duration: 4 Hours

Cost: \$65.00

Certification/Renewal Period: 2 Years

**Healthcare Provider :****Option #9113**

The Basic Life Support for Healthcare Providers course addresses core material such as adult and pediatric CPR including two-rescuer scenarios and the use of bag-valve-mask (BVM), foreign-body airway obstruction and Automated External Defibrillator (AED) use. A participant compact disc is included with the text and contains supplemental information on topics such as stroke, cardiac arrest, and special resuscitation situations. The course is designed for healthcare providers such as emergency medical services (EMS) personnel, physicians, dentists, nurses, and respiratory therapists who require a course recognized by the Heart and Stroke Foundation. This course is also open to first responders who have a duty to respond to a cardiac emergency because of job responsibilities or regulatory requirements.

Learning Objectives

- One and Two Rescuer Adult / Child / Infant CPR
- Adult / Child / Infant Foreign Body Airway Obstruction
- Barrier Device and Pocket Mask
- Bag-Valve-Mask Usage
- Automated External Defibrillator (AED)

Duration: 5 Hours

Cost: \$85.00

Certification/Renewal Period: 1 Year

Renewal Course Duration: 4 Hours

Renewal Course Cost: \$75.00

Option #9114

Basic Life Support and First Aid Training Programs:**Emergency First Aid With HeartSaver AED****Option #9115**
